The dark recesses of the Niccals' psyche...

by Blue (loanscapes@yahoo.co.uk) on 13-Apr-01

Ever wondered why our dark lord's favourite term of abuse seems to be "kiddie fiddler"? D'you think someone may have done something inappropriate when he was a little boy? That might definitely fuck one up the way Murdoc is today, or worse even.

- **Re: The dark recesses of the Niccals' psyche...** by Navarro ([What a fucking C U N T !](#)) on 13-Apr-01
I reckon Murdoc fiddles with kids. But, because he is who he is, it's alright. He can fiddle away cos he kicks so much ass.

- **Re: Guys, help me out here...** by J-MAN on 13-Apr-01
I heard tell that Murdoc smokes 'CAMEL BRAND' cigarettes, but you know I could be wrong. As for height, hes a pretty gangly bloke, so I'd say he is about five feet nine inches
- **Re: Guys, help me out here...** by Mrs. Murdoc on 13-Apr-01
I'd say Benson & Hedges but thats my opinion, also i agree with the 5'9" thing maybe a tad taller not much though.
- **Re: Guys, help me out here...** by J-MAN on 13-Apr-01
Well, if it has an insanely high tobacco/nicotine content, the 'doc will smoke it. How can he be so tall if smoking stunts your growth? The joys of being a cartoon character, eh?

That's a good idea! It'd be better if made a little later though, so it could include a little more, you know? It might be pushing it to make it when they've just been brought out. Especially since most places, like the states, Australia, etc don't have the cd out yet. But it is a great idea :)
- **Re: Gorillaz book** by Chrissy (Chrissilynne@hotmail.com) on 13-Apr-01
Thanks Tony!!!! For showing me this site... the music is great. It's just what I'm looking for.. something with a new flavor and very articulate. ~~Chrissy~~
- **Re: Gorillaz book** by sickness on 13-Apr-01
heck, this is the first sensible post in days. since someone let the monkeys out to play on the board
- **Re: Gorillaz book** by Blue on 13-Apr-01
The possibilities that could come out of integrating graphics and music have been ignored by far

too many from either artistic discipline. Time for change. Hail Hewlett, Niccals and Edwyn!

- **Re: Gorillaz book** by Industrial Vixen (aka IV) on 13-Apr-01
that's what I'm saying sickness. A week ago I came on here every chance I got, and then just 2 days ago it's been flooded with nonsense. I don't even like coming here anymore, especially with all the pairing up and threads from one person to the other. That's what e-mail is for damn it! Hail something
- **Re: Gorillaz book** by Blue on 13-Apr-01
I'll pair up with you if you want. Hail Crumb.
- **Re: Gorillaz book** by jo on 13-Apr-01
Fair enough, people need a chat room but untill someone sets one up, this is the closest they've got. On the subject of things directly relating to the band, I wonder when you will be able to access the other rooms at kong studios. Im getting curious about whats in there

thats not the point, the boards not intended to be a place for people to post just to say hi im here who else is?, or where is everyone. chatrooms do that not band message boards. This isn't a chatroom

- **Re: Ruthie...** by Ruth on 13-Apr-01
Bad English, sorry. We don't want to chat in the message board. That would be a good way of

showing the NEED of chat rooms to the people who have the power to make one, though
